## **SHORT BIO:**

**Dr. Francesco Taddeo** obtained his PhD in Chemical Sciences in 2022 from the University of Naples Federico II, where he worked as a research fellow until 2023. He is currently an Assistant Professor (RTDa) of Industrial Chemistry at the same institution. His research focuses on the valorization of biomass and waste materials for the production of high value-added compounds, with particular emphasis on heterogeneous catalysis and kinetic studies, combining experimental and modeling approaches.
