

17th International Conference of Surfaces, Coatings
and Nanostructured Material | **NANOSMAT2026**
RHODES-GREECE | 6-10 JULY 2026
www.nanosmat.org

SHORT BIO:

Filippo Bossola graduated in Chemistry in 2013 at the University of Milan and earned his Ph.D. in Chemistry and Environmental Science at the University of Insubria in 2017. Since 2019, he has been a Researcher at the Institute of Chemical Science and Technology “Giulio Natta” of the National Research Council (CNR), Milan, Italy. His research focuses on the design and development of nanostructured heterogeneous catalysts for the sustainable production of hydrogen and value-added chemicals under continuous-flow conditions, with operando characterizations carried out at synchrotron facilities.
