## SHORT BIO:

**Alessandro Trovarelli** is Professor of Industrial Chemistry at the University of Udine (Italy), where he leads the Catalysis for Energy and Environment Laboratory. His research focuses on heterogeneous catalysis, with particular emphasis on rare earth-based materials for environmental and energy applications, including emission control and hydrogen production.

He has served on the Editorial Board of *Applied Catalysis B* and is currently a member of the Editorial Board of the *Journal of Rare Earths*. He is the recipient of the 2015 Ford Motor Company University Research Program Award and the 2022 Giacomo Levi Medal.
