

NANOENERGY 2026

LONDON (UK) FROM 4-8 OCTOBER 2026

SHORT BIO

Professor Peter D. Lund is an Emeritus Professor in Advanced Energy Systems and Engineering Physics at Aalto University, Finland. With over 40 years of experience in clean energy technologies, systems, and policies, he has held leadership roles in both Finnish and European energy initiatives, including advising the European Commission and the Finnish government on climate change. His research focuses on sustainable energy, nanotechnology for energy, and energy policy, and he is an Honorary Professor at Southeast University in China.
